## Silvio Nitzsche

Sommelier

For more than 30 years, Silvio Nitzsche has looked after both the guests and the wine as a sommelier, amongst others in some of the best Michelin-starred restaurants.

### Some of his high-profile positions have been:

Sommelier at "Dieter Müller Restaurant" (19,5 GM, \*\*\* Michelin), Bergisch Gladbach/GER

Sommelier at "Erna's Elderberry House", Oakhurst/CA, USA

Assistant Restaurant Manager and Sommelier at "Speisemeisterei" restaurant (18 GM, \*\* Michelin), Stuttgart/GER

Management of the wine retail and wholesale company KierdorfWein.

In 2007, the sommelier found a new home in Dresden. Opening the WEIN | KULTUR | BAR he and his team managed to establish one of the best wine bars in Europe in the wine consciousness of many.

He has succeeded in creating a place where wine is a given. It is not for nothing that he has already won the "Best Wine List of the Year" award six times.

The WEIN | KULTUR | BAR is listed in Gault & Millau guide and is quoted by Falstaff BARGUIDE 2024 as Germany's best wine bar. The NZZ named the wine bar the best wine bar in Europe in 2024.

Silvio Nitzsche handed over his wine bar to a former employee at the beginning of 2024, who is continuing to run it with great success. Since the beginning of 2024, he has successfully dedicated himself to the podcast project "SOMMELIER", in which he invites Germany's most interesting sommeliers to a dialogue.

### SOMMELIER.der.Podcast

In his professional life, the sommelier has received numerous awards for his work and for his company. Silvio Nitzsche has been voted one of the ten best sommeliers in Germany several times by "Der Feinschmecker" magazine and received the "Award of Honour" in 2019. For well over ten years, he has been consistently listed in the top 50 listings of the best German sommeliers by Rolling Pin and Busche Verlag/Aral Schlemmer Atlas. Most recently, he was named "Sommelier of the Year" by Falstaff magazine.

WANTS THAT? ”

# The VISION of simplicity

No distinction is made between red wine or white wine glasses in this collection, the glasses are simply theme- or character-based. The names of the glasses FRESH, STRAIGHT, INTENSE, BALANCED, RICH, NOSTALGIC and SIDE clearly explain what they are used for. You intuitively reach for the glass, which in the best way presents the flavours of the wine that you particularly wish to emphasise. If you want a powerful wine to be more harmonious or a touch more lively and fresh, you pick the glass with the designation, that mirrors your requirement best.

# VISION

The taste experience!

## Traditional glass-blowing

### Filigree craftsmanship meets innovative design

Zieher glasses are all about top quality craftsmanship, which is created in one of the most innovative and best glass blowing workshops in the world. The glasses are manufactured of lead-free crystalline glass, using a traditional glass-blowing method. Each glass is unique and has been created by a glass blower with artistry and dedication.

### Functional design for maximum presence of aroma

The VISION range is guaranteed to provide a highly sophisticated and fascinating design, accompanied by a unique aesthetic perception. The shape of the chalices and waveform of the bottom enable a maximum presence of aroma and optimum development of the wine.

### The wave which releases a wine's full potential

The shape of the bottom of the glass bowl increases the surface area so that the wine is aerated more easily and is able to open up faster. The wave creates a dynamic that intensifies the sensory perception of taste and aroma and transforms the enjoyment of wine into a truly sensual experience.

*"Thanks to the oxygen integration, the wine is stabilised, its aromas are enhanced and harmonised and even the most challenging of wines appears perfectly balanced."*

Silvio Nitzsche, Sommelier

### Unique light refraction

The VISION series provides perfect wine enjoyment: intuitive, uncomplicated and always in accordance with your own desires. However, it is particularly the fascination of the light, the colours, the refraction and the visual depth, that make it impossible to tear your eyes away from the glass, because: You have never seen wine like this before!

## FRESH

For extremely fresh white wines, Prosecco or any variety of sparkling and light rosé wines; with effervescent point

The wide opening of this glass allows the carbon dioxide in sparkling wines to gently evaporate. This prevents the aroma perception of the nose from being broadsided by a concentration of carbon dioxide, which is often the case with classic sparkling wine glasses. The glass provides the palate with a centralised aroma concentration, which allows the wine to express its exquisitely lively, refreshing and light character. The development of the flavour-carrying, fresh acidic structures is encouraged and individual features of the bouquet are brought into focus. The effervescent point at the bottom of the goblet creates a fine string of rising carbon dioxide bubbles in sparkling wine.

## STRAIGHT

For pure grape varieties and fruity / aromatic red and white wine

The characteristics of the wine are reflected harmoniously one-to-one in this glass. The authenticity of the aromatic culture of a grape variety is made discernible and presented in an unpretentious way, which makes this glass particularly suitable for all types of authentic grape varieties such as Riesling or Sauvignon Blanc. Light, aromatic red wines are transformed into pure drinking enjoyment.

## INTENSE

For opulent, great growth, powerful white and red wines, rustic, acidic white and red wines, young and middle aged Bordeaux wine

The tapering neck of this glass intensifies the aroma molecules, which are positively hurled out of the glass. The acidity is harmoniously structured in the fruit bouquet and completes the opulent overall sensation of strength. The glass provides intensive oxidation, making it ideal for any wine that can be decanted or served in carafes.

## BALANCED

For white and red Burgundy, great Piedmontese wines, highly complex but sensitive white and red wines, extremely opulent rosé wines and old vintage champagne

A perfect glass for wine that is not for decanting because of its sensitive structure, but still requires a great deal of air. This crystal emanates pure consonance. Even with discordant wines, it succeeds in creating a concentrated and highly elegant impression. This glass turns wine into a complete aromatic experience, without overdoing it.

## RICH

For fortified, sweet and dessert wines and any type of distilled beverage

A glass for the majority of heavyweight or high-proof drinks. The small presentation surface ensures that the wine or brandy does not become overly concentrated, so that the heavyweight aromatic elements are released in a nuanced way. Due to the glass having a narrow opening, the nose cannot go in very far, which prevents the perceiving mucous membranes from receiving a barrage of alcohol.

## SIDE

For carbonated mineral water and soft drinks

Complementing the wine glass series, this glass is the tasteful companion for a stylish presentation of carbonated mineral water and soft drinks. The carbon dioxide is harmonised and the acids and mineral elements of fine sources are delivered to the tongue and the palate in a refreshing way, without being intrusive.

Valuable information about the care of the VISION glass series

No 5664 (page 12)

## Care instructions VISION

To maintain the attractive appearance of the glasses for as long as possible, we recommend washing by hand. If you do use the dishwasher, we suggest the following:

- Select the shortest possible rinsing cycle at low temperatures, use a cleaning agent that is suitable for glasses and ensure that the water hardness is between 4 and 6.
- Remove your glasses from the dishwasher as soon as the rinsing cycle is completed, if possible.
- Polish your glasses with half-linen or microfibre towels for the best result. Cotton towels may leave small scratches and traces of lint.
- It is best to use 2 cloths for drying. This way you can polish the glass from the inside and outside at the same time. Please avoid to turn at the base, as this may cause the stem to break.

# TESORO

## THE FLAVOUR PRESERVER

# TESORO

An aid to wine enjoyment

## The product:

The "Tesoro" wine glass lid preserves the volatile aromas and fits on every VISION wine glass. At the same time, it protects the wine from flying insects and other foreign bodies.

The lids are made of high-quality borosilicate glass, which originates from the laboratory sector and is known for excellent chemical resistance and high light transmission in combination with a flawless surface quality. The break-proof glass can easily be cleaned in the dishwasher and is odourless - the basic requirement for preserving the aromas of the wine.

№ 5478 (page 12)

## The function:

Inside a wine glass, a microcosm of different aroma molecules is created. The variety of primary, secondary and tertiary fragrances emanates from a wine glass in several stages and cannot be enjoyed in interplay.

The "Tesoro" lid preserves the volatile aromas within the glass. The wine does not develop more slowly, but the fragrance molecules, which normally vanish, can be perceived gradually or together - at your own discretion. Thus the little enjoyment helper enables a completely new wine experience.

## Tapas culture:

Tapas (lit.: small lids) meanwhile have become a gastronomic concept. According to the actual literal origin, you can arrange accompanying snacks and sweets on the "Tesoro" and serve them to your guests with the wine glass.

# Beguiling aroma variety

“It's not just a wine glass lid, it's about capturing transience. Hardly anything is as volatile as the wine aromas that escape from an open bottle or a filled wine glass. It happens automatically and naturally. It is irreversible and, in retrospect, often leaves a feeling of regret for not being able to capture the moment.

Sometimes it's in fact the small and inconspicuous things that leave a particularly big and lasting impression - like the "Tesoro" wine glass lid.

It creates wine experiences you have never before consciously and obviously perceived.”

Silvio Nitzsche  
SOMMELIER.der.Podcast

## Putting the rule to the test:

Take two glasses of the same kind. Now fill both of them equally. "Seal" one of the glasses with "Tesoro" and leave the other one open. Wait for just five minutes and then smell both glasses.

Both wines will be identical in taste! This reflects the development passed through by the opened wine nevertheless. Note the variety of aromas, which you can absorb and analyse in the glass previously closed with the lid. You will be

” Many decanters provide a fast but completely unbalanced development of wines, as they only develop by a macro-oxidation on the surface.

It is more balanced and harmonic to implement the necessary oxygen in a very soft and gentle way. The filigree rays of the centric star animate the served wine to a very soft enhancement. During the slewing the oxygen is mildly folded in and integrated into the wine. Thus the wine starts to develop on its own terms and not – as with other decanters – just on the surface. By using borosilicate glass as raw material for this decanter, which stands out by its extremely smooth surface, another highly pleasant effect is created: the aromatic molecules are not expelled from the wine but allowed to present themselves completely in the wine glass. The aerated wine becomes extremely balanced, carefully crafted and centered. An additional value, which is simply priceless!”

No 4945.PB (page 22)

The big “Star” has a recessed grip at the bottom, which improves the swirl during filling and slewing. On the other hand, it guarantees a safe handling and firm stand while serving the wine. A black silicone base ring, enclosed in the present box, offers an attractive base and allows inclined positioning of the decanter.

The small “Star” is particularly suitable for the decantation of wines by the glass or small bottles. The ideal charge to provide a maximum of oxygen is 0.375 ltr. The reduced size allows to decant white wines and still to temper them in wine coolers. Also for dessert wines, the staging of innovative high-end cocktails, flavoured spirits, to the point of exotic juices – this unique product is the perfect solution.

# THE ART OF DECANTING

The decanter “Star” synergises the aesthetics of a unique copy with the functionality of a professional tool for vinophile pleasure. The individual star raises each carafe to an exceptional piece. This artfully created centerpiece becomes a unique element in an excessively complex multi-stage process. This is pure luxury in our uniform world, because not a single “Star” is of the same kind.

# decanter/carafe EDDY

The volume of the big "Eddy" has been dimensioned in a way that, with a filling of up to 1.5 litre, the extension of the wine's surface becomes as large as possible. Due to the flattened bottom, this respirator stands safely and straight, the enclosed collar made of matt black silicone also allows an inclined positioning.

The small "Eddy" is perfectly suitable for the decanting of wines by the glass or little bottles. Thereby the ideal charge to maximise the content of oxygen is 0.375 litre. The compact design is perfectly suited to decant white wines first and then to temper in a wine cooler. By the extravagant character of these design elements, even high-end cocktails and other exotic creations can be staged appropriately.

The basic material for this development worker for wine is extremely robust, high-grade borosilicate glass. This type of glass, which stands out due to its dense structure, extraordinary transparency and hardness, is the precondition for the implementation of the introversive swirl elements. In an interplay with light and the contained wine, they also create visually interesting colour reflections and almost graphic effects.

” The decanter "Eddy" defines the world of extreme wine instruments in a completely new way. Their functionality has seldom been united with an aesthetic language of design in such a spellbinding way. The matchlessly fast-paced development of structure, which all wines undergo in that respirator, is really fascinating! Once rotating in this texture stimulator, due to the thousandfold swirls at the conical indentations, the wine goes through a process, whose behavior is equivalent to an oxidation reaction of several hours, within a few seconds."

## Base ring with LED light

This base ring for the "Eddy" (item 4884.PB) and "Star" (item 4948.PB) decanters offers the chance to put served wines into the spotlight by illumination.

The rechargeable Zieher LED light fits exactly into the cavity at the bottom part of the ring and thus can put the served wine in the limelight from inside the decanter. In the beginning, the illumination effect inside the filled decanter can be very unobtrusive, when serving strongly pigmented red wine. But at a decreasing level, the play of light and colours becomes more and more intense in an exciting way.

The gift set is an effective accessory for the Zieher decanters "Eddy" and "Star" and comprises besides the ring, made of matt black silicone, also the light, remote control and the charger. LED light and remote control offer various functions, such as adjustable brightness, 7 different colours and various colour-changing functions.

On hot days, decanting wine while keeping it at the optimal drinking temperature can be quite a challenge.

The decanter cooler "On The Rocks" offers an innovative and highly aesthetic solution for this situation.

"On The Rocks" has been exclusively designed for Zieher decanters "Eddy" (4884.PB) and "Star" (4948.PB). The selected gray marble is captivating due to the diverse patterns of its marbling. Each piece is unique and offers the opportunity to decant and simultaneously chill white, rosé, and red wines in a stylish manner.

The top part of the cooler (suitable for decanter "Eddy" and "Star") is stored in the freezer, while the matching base remains unchilled. It captures the condensation that forms on the frosted top part during use, ensuring that the table remains dry and free from unwanted water stains.

#### The exceptional

The frozen bowl ensures that the wine maintains the desired drinking temperature for longer on hot days. Two silicone rings dampen noise and protect the decanters when inserted into the cooler.

**Material:** Polished marble/silicone

#### Please note:

Marble is a natural product, which means that the grey marbling can vary strongly. This is exactly what creates the vivid and unique look of this natural stone. Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles. In the "Doppio" decanter, wine is given a double stage that attracts attention and provides surprising effects.

The geometric silhouette and the reduced design appears almost technical and direct the view to the inside, because the whole secret of this extraordinary design only discloses in filled condition.

Attractive visual effects appear already during the pouring process when the wine spreads onto both levels of the "Doppio" decanter. It almost seems that the wine is levitating.

In addition to the natural flow of the wine, which pours over the inside of the decanter onto the two levels, the division into two levels also has an extremely beneficial effect on the development of the wine. The splitting creates a significantly larger surface of the wine with a comparatively small space requirement on the table, which maximises the possible oxygen contact.

The division also remains when pouring out, so that the cascaded flow creates a waterfall effect, which additionally increases aeration through swirling.

"Doppio" is elaborately handcrafted from high quality borosilicate glass, which is robust and easy to clean. The ideal charge of the decanter is 0.75 litre in order to generate maximum oxygen contact and the most beautiful optical effects.

Due to the shaping of the neck, the wine flows along the entire inside area while filling the decanter, which maximises the surface of the wine and thus contributes to the aeration. The three swales at the bottom serve to further swirl the poured wine, which results in a gentle but nevertheless very effective aeration. This effect can be intensified by warily swinging the filled decanter. Furthermore, the three bulges at the bottom provide a wobble-free and safe stand. The diagonal cut of the neck and the accurate polish of the raw edges minimise the formation of drops while pouring out.

FORMED BY HAND!

"Pebble" is made of high-grade lead-free crystal-line glass. The unfilled decanter inspires by the brilliance of the glass alone and the resulting light reflections. This product is hand-blown with perfect craftsmanship. The sensitivity and longstanding experience of the glass blowers become apparent in particular in the creation of the bottom, which is extensively dimensioned and separated into three convex segments.

**"DOPPIO" THE DOUBLE STACK**

When pouring into the "Doppio" decanter, the wine is distributed over two levels, creating appealing visual effects and maximising the oxygen contact of the wine through the significantly enlarged surface. The division into two is retained even when pouring out and intensifies the ventilation through additional swirling.

**"PEBBLE" THE CLASSIC**

The handblown decanter in classical shape results from the high craftsmanship of experienced glass blowers. The shaping of the neck, the bell-bottomed body and the three dents, integrated in the bottom, already provide a maximisation of the surface during the pouring. Thus the maximum possible contact with oxygen and at the same time, a mild development of the wine can be achieved.

**The exceptional**

- The first decanter of its kind worldwide!
- Innovative design concept with filling on two levels for more oxygen contact
- Each piece is unique - created by craftsmanship

**The exceptional**

Inducted by the shaping, the wine runs along the complete inner surface already during the filling. Three dents in the bottom provide a gentle swirl and a soft aeration. This effect can be intensified by a soft slewing.

**Ideal charge for a maximum of aeration:** 0.75 to 1.5 litre

**Material:** High-grade lead free crystal glass

**Delivery contains:** 1 decanter

Creating a useful tool with a high demand on aesthetics - this was the idea during the development of "DryPod". The solid rack made of brushed stainless steel, either black or brass coloured, forms the basis for this shapely product. An accurately fitting drip tray, made of translucent resin, is placed inside the rack and harmonises with its anthracite colouration with both variants.

Primarily "DryPod" is a drying rack for decanters. The geometry was chosen in a way that all Zieher decanters can be placed safely. Besides the big variations of "Eddy", "Star", "Doppio" a.s.o., it can also take hold of the smaller versions of some types as well as many other decanters in classical format. The drip tray securely collects dripping water and can be easily removed for cleaning.

Even after drying, all decanters are well stored in "DryPod". No matter if in a showcase or on the shelf, the decanter is stylishly presented by the precious display. Here, the downward-pointing opening helps prevent dirt from getting in easily.

Looking at "Doppio", "Star" or "Eddy", almost everybody who already gained experience with decanters, will intuitively ask how to clean them. Many decanters have the nature, in particular when used for red wines, to absorb the colour pigments and to show light grey or brown surface layers after a certain usage. Most of these carafes have microscopically seen a rough surface, where leftovers of the wine might adhere to and cause an unattractive appearance of the decanters.

With our decanters made of borosilicate glass, this effect might appear after a much longer period due to the extremely smooth and repellent surface of this high-quality laboratory glass. In case it actually happens, these traces can easily be removed by using a mixture of citric acid and water. After a 2 hour residence time, the problem should be solved.

Optionally available drying racks, made of stainless steel, facilitates the drying of the decanters after rinsing.

"Special about the VISION series is that we are talking about character glasses. We approach the wine individually through the glass and thus receive a much more intense experience of pleasure. The glasses are not only eye-catching but also enrich our palate."

Thomas Dötzer, Germany  
**www.doetzers.de**

"From the very beginning, we have been excited by the appearance and the design of the glasses. But after the first degustation, we have been enthusiastic! We did not want to stop tasting. The wine simply gains a different character. The BALANCED glass makes decanting superfluous – and a Grappa out of the RICH glass is simply a great experience!"

Andrea Zigrossi, Italy  
**@trotterwine**

"I can say that my first encounter with Zieher glasses was "love at first taste". Finding glasses that enhance the tasting experience to the maximum is not easy, and the VISION Series succeeds in full! Thanks to the unique design and the lightweight material, the wine is excellently expressed making the tasting flawless."

Rasmus Christensen, Denmark  
**@winewherever**

"The VISION series has a remarkable ability to bundle the fragrance, while providing an elegant and aesthetic appearance."

Ed Agg, Australia  
**@thecellarpost**

"The Zieher VISION range is the marriage of exceptional design and an uncompromising approach to enhancing the wine experience. It's these characteristics that make the VISION range both a work of art, and the most precise, reliable, and exciting glassware one can own."

Elisa Dublyanska, Italy  
**@ilviaggioinunalice**

"The INTENSE glasses from the VISION collection are my favourite! A perfect combination of quality, innovative design and elegance. They give a unique tasting experience."

Emanuele Trono, Italy  
**@enoblogger**

"My experiences with the Zieher VISION series have been outstanding. The glasses praise the wine, they are extremely light, give expressiveness to the wine and are also a beautiful design object. They are a must-have for every wine lover and I also became Zieher-addicted."

Walid Romaya, USA  
**@princeofwine**

"As a wine influencer, I have tasted thousands of wines in all glass shapes and sizes. The INTENSE wine glass is the perfect balance of beauty and functionality. It is a piece of art in your hand, that delivers and intensifies the wine aromas and characteristics through its unique and beautiful bulbous base. When using the glass for wine tastings in bars, people literally flooded me with comments about its beauty. Simply spectacular and one of the best wine glasses I have ever tasted with."
